Probably some random box randomly there in the level and then it shrivels and turns into a portal **[DONE]**

-There are hidden areas or whatever where you can get spells???

Either that or you can get them as the story goes

Yeah maybe. Siwili gives them to you? Or random NPCs idk

-Are there still alternate endings? IDK

Maybe

Either way I guess you fight the blanket snort at the end of the game

Then Friday is free and

OH MY GOD LOOOOOOL

Friday should just be like "Yay I'm free and" *CREDITS ROLL*

-At the beginning, there's a part with Captain talking to Splash (also maybe Dawn's there too IDK) about what's happening or something. I don't know if you should see Friday right away or what.

Maybe Friday would spawn at the beginning, twerks for a while, says "I'm gonna check it out"

Then fade out, and they find out Friday somehow dissipated. And then there's a training stage which completely replaces the TLDR at the beginning, after you select "New Game"
